

FABRIC MODAL

At JACOLI, we offer high-quality Modal yarns and fabrics, valued for their exceptional softness, dimensional stability, and eco-friendly origin. Made from beechwood pulp through a sustainable process, Modal is a premium fiber that combines comfort with long-term durability.

Ideal for both knitting and weaving, our Modal fabrics are available in widths from 1.40m to 3.20m, and yarn counts ranging from Ne 2 to Ne 60 and for MicroModal from Ne 2 to Ne 100. Blends with cotton, elastane, or polyester enhance versatility across applications.

Key applications include:

- **Apparel** – Perfect for underwear, loungewear, t-shirts, and high-comfort garments.
- **Home Textiles** – Bed sheets, pillowcases, and towels that stay soft wash after wash.
- **Athleisure & Wellness** – Breathable and smooth fabrics that support comfort in motion.

JACOLI delivers Modal solutions with quality and purpose.
